

# Truvelo CMS 20x82mm

The science of modern weaponry has brought to light highly sophisticated electronic guidance and communications equipment, GPS, night vision and radar systems found on light to medium skinned vehicles. These targets could be neutralised by the modern sniper equipped with this heavy calibre weapon, due to weapon design, it can be managed and fired from a bipod or tripod with integrated mounting points. Design features include a fully adjustable recoil assembly, adjustable grip, adjustable cheek piece, stanag picatinny rails and removable bipod.
